

## - Press Information -

**Moore and More - a tribute to Gary Moore** is one of if not Europe's most successful Gary Moore tribute bands.

Featuring exceptional guitarist Bernd Kogler, the band fascinates every audience with its electrifying show. Played live by the four part band, their performance offers the highest level of rock and blues entertainment. Audiences are regularly completely enthusiastic after the show.

The band got taken to the next level in August 2015, when guitarist Bernd Kogler acquired Gary Moore's very own **The Heritage CM150 prototype** guitar that he used during the 1989 / 1990 tours. Bernd uses it onstage from time to time.

This guitar can be seen on the 1990 Montreux DVD.

Since July 2016 Bernd owns another one of Gary Moore's guitars: the one that became especially famous through the reknown Wikipedia photo: the **Gibson 1957 Les Paul Goldtop VOS Darkback Reissue**, which can be seen and heard on the AVO Sessions videos from 2008.

Since January 2016 keyboard player and singer Frank Altpeter uses the instruments and original soundpatches, Neil Carter used on Gary Moore's last tour in Montreux 2010.

The band is continuously supported by **Neil Carter**, original keyboard-player, guitarist and singer of the Gary Moore band during the rock era in the 1980s and in 2010. Therefor the band is able to re-create the songs as close to the originals as possible.

**Moore and More** authentically re-create Gary Moore's diverse compositions as well as his virtuoso guitar work.

This earned the band appreciation by rock and blues fans.

Their many concerts take place in clubs, halls and open air venues and always find the audience enthusiastic.

**Moore and More's** extensive repertoire features all his hits like *Still Got The Blues*, *Walking By Myself*, *Parisienne Walkways*, *Friday On My Mind*, *Over The Hills And Far Away*, as well as numerous others from his 35-year career - but also less known titles from his time with *Colosseum II*, *Thin Lizzy*, the *Greg Lake Band* and *BBM*, that surely will electrify connoisseurs and fans.

The existing rock and blues sets are continuously expanded and varied.

Therefor every gig is a new exciting experience.

This way **Moore and More** have been able to build up a devoted fan base, that follows their gigs.

#### **The members of Moore and More are:**

**Bernd Koegler (guitars, vocals)** - the exceptional guitarist who lets one believe Gary Moore is on stage again - if you keep your eyes closed ;-)

At the same time he is the figurehead of the band: no-one celebrates rock and blues the way he does it - now on Gary's very own guitar.

**Frank Altpeter (lead vocals, keyboards)** - the band's powerful voice, strong or sensitive and soft, always reflecting the song's mood.

At the same time he provides the diverse arrangements for Gary's rock and blues titles, using the 2010 original sounds and instruments of Neil Carter.

**Oliver Wolke (drums)** - has had a long career playing in numerous bands.

No matter which style: Blues or Rock, he will always lay a solid foundation to the band's rhythm section.

**Jochen Reinsberg (bass)** - an experienced bass player whos passion is the groove. Together with Reiner Heinzen he delivers an inimitable foundation to Bernd's extraordinary guitar work.
